Pre-Conference Workshop

Unlocking the Future of Chronic Disease Prevention and Management in Colorado

Tuesday, October 3rd 9:30am - 4:00pm

There is no charge to attend this unique opportunity. Please consider adding this event to your schedule when completing your registration for Public Health in the Rockies.

Breakfast, lunch, and afternoon refreshments will be served. The session will begin at 9:30am and go until the end of the day at 4:00pm.

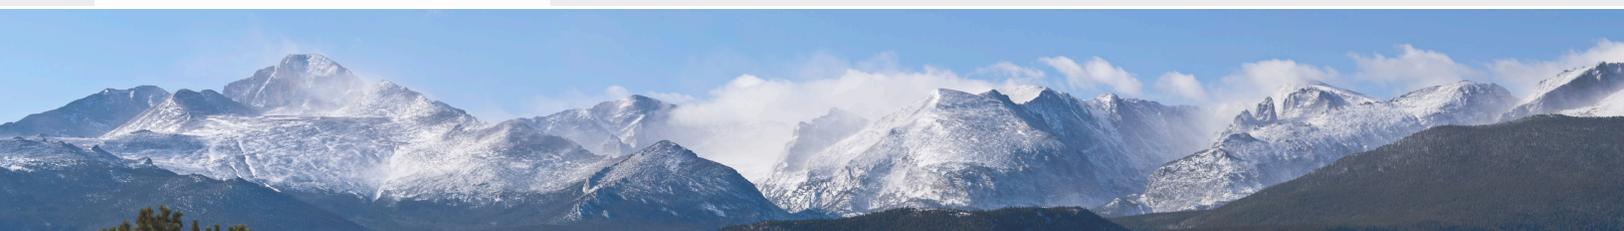

New this year! The Colorado Public Health Association, in conjunction with the Colorado Department of Public Health and Environment's (CDPHE) Prevention Services Division, is offering a free pre-conference workshop for Colorado's public health professionals on Tuesday, October 3rd at the Keystone Lodge & Conference Center. We invite you to participate in Colorado's planning process for chronic disease prevention and management where participants will have a chance to learn how the statewide chronic disease programs out of CDPHE currently prioritize their efforts, the means by which they track progress and hold themselves accountable, and how the existing state chronic disease plan informs existing efforts out of CDPHE and the statewide Amendment 35 grant programs such as the Cancer, Cardiovascular, and Pulmonary Disease Grants and Tobacco Prevention and Control Grants. Participants will be invited to share their ideas for future directions and interventions in chronic disease.

Agenda

Program managers from the chronic disease programs at CDPHE will explain their program priorities and current tracking metrics.

A panel discussion of chronic disease professionals from across Colorado will discuss the changing landscape of public health work and how federal funding changes are likely to impact Colorado efforts.

The afternoon planning session will allow participants to identify critical areas of opportunity and key strategies of interest which need to be included in the next state chronic disease plan.
